

## Illuminator Highlighter

The Illuminator STX highlighter is a revolutionary product! This highlighter is not a liquid so it eliminates spilling and blotting and requires no shaking before use. The Illuminator STX can be used similar to a crayon. Markings are made by drawing the STX across the mark several times. The yellow highlight dries quickly and will not reproduce on copy or fax machines. The dispenser is reusable. The highlighter consists of a replaceable cartridge; a holder with a mechanism for securing, propelling and retracting the cartridge; and a cap with a pocket clip.

|                         |        |                    |               |
